RESEARCH INTERESTS

Supply chain management, multi-criteria decision-making, fuzzy logic, optimization, operations management, sustainability, predictive analytics, decision support systems.

EDUCATION

Ph.D. in Mechanical and Industrial Engineering **2020 to 2023**

Toronto Metropolitan University (formerly Ryerson University), Toronto, ON, Canada

- Dissertation: *Design and Optimization of Sustainable Food Supply Chain Networks*
- Supervisors: Dr. Saman Hassanzadeh Amin and Dr. Liping Fang
- Grade: A+ (GPA 4.33 / 4.33). Completed in three years.
- Nominated for the Governor General's Gold Medal

M.Sc. in Industrial Engineering (Engineering Management) **2016 to 2019**

Iran University of Science and Technology (IUST), Tehran, Iran

- Thesis: *Proposed a Taguchi-Based BWM Method Optimization Approach*
- Supervisor: Dr. Seyed Jafar Sadjadi
- GPA: 90 / 100

ACADEMIC APPOINTMENTS

Assistant Professor (Limited Term) **Aug 2023 to Apr 2026**

Department of Management Science and Business Analytics, Shannon School of Business, Cape Breton University, Sydney, NS, Canada

- Designed and delivered four post-baccalaureate analytics courses (Data Mining, Predictive Modeling, Data Visualization, Quantitative Methods) across six sections per year, with 40 to 60 students each.
- Taught 800+ students over three years, earning consistent 4.5 to 4.8 out of 5 on official student evaluations.
- Supervised 100+ final group projects on real datasets in healthcare, e-commerce, and telecommunications, coaching teams through full machine learning pipelines.
- Co-supervised graduate research; co-authored applied analytics work with 442+ citations on Google Scholar (h-index 7).

Sessional Lecturer (Online) **Sep 2022 to Aug 2023**

Department of Management Science and Business Analytics, Shannon School of Business, Cape Breton University

- Taught Quantitative Methods (MGSC-5113) to graduate students in the post-baccalaureate analytics program.

Research Assistant and Graduate Assistant **Sep 2020 to Nov 2023**

Department of Mechanical and Industrial Engineering, Toronto Metropolitan University, Toronto, ON, Canada

- Conducted doctoral research on multi-objective optimization and predictive models for sustainable supply chain decisions across wheat, soybean, and biomass case studies.
- Published in top-tier journals including *Journal of Cleaner Production* (IF 9.8) and *Sustainable Production and Consumption* (IF 12.1).
- Served as Graduate Assistant for the following undergraduate and graduate courses:
  - Operations Research II (IND604), Winter 2021
  - Reliability and Decision Analysis (IND832/MEC832), Spring and Summer 2021
  - Operations Research I (IND508), Fall 2021
  - Project Management (IND713), Fall 2021
  - Systems Modelling and Simulation (IND600), Winter 2022 to 2024

INDUSTRY EXPERIENCE

Project Manager **Oct 2018 to Jan 2020**

Mehr Naghsh Afarinan Shayan Company, Tehran, Iran

- Led a team of five to develop a tourism mobile application end-to-end, including scope definition, scheduling, resource allocation, and delivery.
- Managed stakeholder engagement and fund acquisition, presenting business cases to investors and coordinating across technical and business teams.

Supply Chain Analyst, Strategic Planning and Research Centre **Oct 2017 to Nov 2018**

SAIPA Automotive Manufacturing Company, Tehran, Iran

- Applied multi-criteria decision analysis to evaluate replacement vehicles for import and assembly using technical, cost, and market criteria.
- Conducted market analysis on bus procurement from China and automated recurring reporting processes across the strategic planning centre.

PUBLICATIONS

Citation summary: Google Scholar: 442 citations, h-index 7 | Scopus: 345 citations, h-index 7 | Web of Science: 314 citations, h-index 8

a) Peer-Reviewed Journal Articles

1. Bateni, F., **Sharifi, E.**, Amin, S. H., et al. (2025). Sustainable food supply chain network design and optimization: A systematic literature review. *Journal of Data, Information and Management*. Springer.
2. **Sharifi, E.**, Amin, S. H., and Fang, L. (2023). Designing a sustainable, resilient, and responsive wheat supply chain under mixed uncertainty: A multi-objective approach. *Journal of Cleaner Production*, 140076. Elsevier. **Impact Factor: 9.8.**
3. **Sharifi, E.**, Fang, L., and Amin, S. H. (2023). A novel two-stage multi-objective optimization model for sustainable soybean supply chain design under uncertainty. *Sustainable Production and Consumption*, 40, 297 to 317. Elsevier. **Impact Factor: 12.1.**
4. **Sharifi, E.**, Amin, S. H., and Fang, L. (2023). Assessing sustainability of food supply chains by using a novel method integrating group multi-criteria decision-making and interval type-2 fuzzy set. *Environment, Development and Sustainability*, 1 to 41. Springer. **Impact Factor: 4.9.**

5. **Sharifi, E.**, Sadjadi, S. J., Aliha, M. R. M., and Moniri, A. (2020). Optimization of high-strength self-consolidating concrete mix design using an improved Taguchi optimization method. *Construction and Building Materials*, 236, 117547. Elsevier. **Impact Factor: 7.4.**
6. Hendiani, S., **Sharifi, E.**, Bagherpour, M., and Ghannadpour, S. F. (2019). A multi-criteria sustainability assessment approach for energy systems using sustainability triple bottom line attributes and linguistic preferences. *Environment, Development and Sustainability*, 1 to 35. Springer. **Impact Factor: 4.9.**
7. **Sharifi, E.**, Hasanpour, J., and Taleizadeh, A. A. (2019). A lot sizing model for imperfect and deteriorating products with destructive testing and inspection errors. *International Journal of Systems Science: Operations and Logistics*, 1 to 12. Taylor and Francis. **Impact Factor: 4.2.**

Multi-expert multi-criteria decision making based on the likelihoods of interval type-2 trapezoidal fuzzy preference relations. *International Journal of Machine Learning and Cybernetics*, 11(12), 2719 to 2741. Springer. **Impact Factor: 5.6.**

b) Conference Publications

1. **Sharifi, E.**, Fang, L., and Amin, S. H. (2023). Developing a novel sustainable, resilient, and responsive wheat supply chain network: A multi-objective approach under mixed uncertainty. *Management Science Division, ASAC 2023 Conference*, Toronto, Canada, June 3 to 5, 2023.
2. **Sharifi, E.**, Amin, S. H., and Fang, L. (2023). A stochastic multi-objective model for sustainable soybean supply chain network configuration. In *Industrial Engineering in the Covid-19 Era: Selected Papers from the Hybrid Global Joint Conference on Industrial Engineering and Its Application Areas, GJCIE 2022* (pp. 238 to 249). Cham: Springer Nature Switzerland.
3. **Sharifi, E.**, Fang, L., and Amin, S. H. (2021). A fuzzy hierarchical group decision approach for sustainability assessment of food supply chains. Presented at and refereed extended abstract published in the *Proceedings of the 21st International Conference on Group Decision and Negotiation*, Toronto, Canada, June 6 to 10, 2021, pp. 141 to 143.
4. **Sharifi, E.**, Amin, S. H., and Fang, L. (2021). A new fuzzy group decision-making approach for evaluating sustainability of food supply chains. In *IIE Annual Conference Proceedings*, Institute of Industrial and Systems Engineers (IISE), 199 to 204.
5. **Sharifi, E.** and Rodbaraki, J. H. (2016). New mathematical modeling for perishable items inventory control with acceptance sampling. *12th International Conference on Industrial Engineering*, Tehran, Iran.
6. Asgharpour, A., **Sharifi, E.**, and Rodbaraki, J. H. (2018). A model for perishable items inventory control with fuzzy demands. *14th International Conference on Industrial Engineering*, Tehran, Iran.
7. **Sharifi, E.** and Salami, Z. (2018). A conceptual inventory model using demand forecasting techniques and EOQ. *5th International Conference on Iran Automotive Industry*, Tehran, Iran.

c) Conference Presentations

1. **Sharifi, E.**, Amin, S. H., and Fang, L. (2023). Designing a sustainable, resilient, and responsive wheat supply chain network under an uncertain environment. Presented at *CORS (Canadian Operational Research Society) / Optimization Days 2023*, Montreal, Canada, May 29 to 31, 2023.
2. **Sharifi, E.**, Fang, L., and Amin, S. H. (2022). Developing a new hybrid multi-objective optimization model for soybean supply chain configuration with sustainable considerations under uncertainty. *CORS / INFORMS International Conference*, Vancouver, Canada. **(Chairperson of the Supply Chain Optimization session.)**

d) Working Papers

1. **Sharifi, E.**, Amin, S. H., and Fang, L. (2026). Designing a sustainable food supply chain integrating supplier selection and order allocation using fuzzy multi-criteria decision-making methods. *Under review.*
2. Saravanan, A., **Sharifi, E.**, and Amin, S. H. (2026). Advancing minority class detection in diabetic diagnosis through Borda-based feature selection and hybrid resampling. *Under review.*
3. Rahiminia, S., **Sharifi, E.**, Amin, S. H., and Fang, L. (2025). A sustainable forest-based biomass supply chain network redesign: A robust optimization approach. *Under review.*

e) Theses

1. **Sharifi, E.** (2023). *Design and Optimization of Sustainable Food Supply Chain Networks*. Ph.D. dissertation, Toronto Metropolitan University. Supervisors: Dr. Saman Hassanzadeh Amin and Dr. Liping Fang.
2. **Sharifi, E.** (2019). *Proposed a Taguchi-Based BWM Method Optimization Approach*. M.Sc. thesis, Iran University of Science and Technology. Supervisor: Dr. Seyed Jafar Sadjadi.

EDITORIAL AND REVIEW SERVICE

Journal Reviewer

- Environment, Development, and Sustainability (Springer), 6 reviews
- Journal of Cleaner Production (Elsevier), 3 reviews
- Construction and Building Materials (Elsevier), 1 review
- Transportation Research Part E: Logistics and Transportation Review (Elsevier), 1 review
- Cleaner Logistics and Supply Chain (Elsevier), 1 review
- Green Technologies and Sustainability (Elsevier), 1 review

TEACHING EXPERIENCE

Courses Taught (, Cape Breton University

- MGSC-5126 Data Mining, Fall 2023 to 2026
- MGSC-5125 Predictive Modeling and Analytics, Fall 2023 to 2026
- MGSC-5127 Data Visualization, Fall 2023 to 2025
- MGSC-5113 Quantitative Methods, Fall 2022 to 2025

Cumulative enrolment: 800+ students over three years. Student evaluations: 4.5 to 4.8 out of 5 (Fall 2025, n = 45, 85% response rate). Highest dimension: returning assignments in a timely manner, 4.77 out of 5.

Graduate Teaching Assistantships, Toronto Metropolitan University

- IND600 Systems Modelling and Simulation, Winter 2022 to 2024
- IND508 Operations Research I, Fall 2021
- IND604 Operations Research II, Winter 2021
- IND713 Project Management, Fall 2021
- IND832/MEC832 Reliability and Decision Analysis, Spring and Summer 2021

STUDENT SUPERVISION

Master of Engineering Co-Supervision (with Dr. Saman Hassanzadeh Amin)

- **Raha Bateni**, Mechanical, Industrial, and Mechatronics Engineering, Toronto Metropolitan University. Research topic: design and optimization of food supply chain networks. January 2024 to August 2024.

AWARDS, HONOURS, AND SCHOLARSHIPS

- **Nominated for the Governor General's Gold Medal**, Toronto Metropolitan University, 2023. Highest academic honour in Canada, awarded for outstanding doctoral dissertation.
- **TMU Doctoral Tuition Scholarship (International)**, Toronto Metropolitan University, 2020 to 2024. Full tuition plus $24,000 stipend.
- **Toronto Met Graduate Scholarship (TMGS)**, 2023 to 2024. $15,000.
- **Mechanical and Industrial Engineering Graduate Studies Award**, Toronto Metropolitan University, 2022 to 2023. $2,000.
- **Diploma in Operational Research**, Canadian Operational Research Society (CORS), 2021.

PROFESSIONAL CREDENTIALS AND MEMBERSHIPS

Professional Engineering Licence

- **Professional Engineer (P.Eng.)**, Engineers Nova Scotia. Member #20250461 issued February 2026.

Professional Society Memberships

- Canadian Operational Research Society (CORS)
- Institute for Operations Research and the Management Sciences (INFORMS)
- Administrative Sciences Association of Canada (ASAC)
- Professional Engineers Ontario (PEO)
- Engineers Nova Scotia

ACADEMIC SERVICE AND VOLUNTEER ACTIVITIES

- Technical support for the 21st International Conference on Group Decision and Negotiation (GDN), June 6 to 10, 2021.
- Student Representative, Graduate Council and Department Council, Toronto Metropolitan University, 2021 to 2022.
