

PERSONAL INFORMATION

Ebrahim Sharifi, Ph.D. P.Eng.

Assistant professor (Limited term), Department of Management Science and Business Analytics
Shannon School of Business, Cape Breton University

Email: Esharifi1372@gmail.com

Email: Ebrahim.sharifi@torontomu.ca

Cellular: +16472129446

Google scholar: <https://scholar.google.com/citations?user=1ErF1PwAAAAJ&hl=en>

EMPLOYMENT HISTORY

**Assistant professor (Limited term), Department of
Management Science and Business Analytics, Shannon
School of Business, Cape Breton University**

August 2023 – April 2026

Courses:

- Quantitative methods (MGSC-5113) Fall 2022-25.
- Data mining (MGSC-5126) Fall 2023-25
- Data visualization (MGSC-5127) Fall 2023-25
- Predictive Modeling/Analytics (MGSC-5125) Fall 2023-25

**Sessional lecturer (Online), Department of
Management Science and Business Analytics, Shannon
School of Business, Cape Breton University**

September 2022 – August 2023

Courses:

- Quantitative methods (MGSC-5113)

**Toronto Metropolitan University (Formerly Ryerson
University)**

September 2020 – November 2023

- Research Assistant
- Graduate Assistant
- Operations Research 2 - (IND604), Winter 2021.
- Reliability/Decision analysis – (IND832/MEC832), Summer/Spring 2021
- Operations Research 1 - (IND508), Fall 2021.
- Project Management - (IND713), Fall 2021.
- Systems modelling and simulation – (IND600), Winter 2022-24.

Mehr Naghsh Afarinan Shayan Company

October 2018 - January 2020

- Project Manager

SAIPA Automotive Manufacturing Company

October 2017- November 2018

- Supply Chain Analyst in Strategic Planning and Research Centre for SAIPA Group
-

RESEARCH INTERESTS

- Supply Chain Management, Multi-Criteria Decision-making, Fuzzy Logic, Optimization, Operations Management, Sustainability, Decision Support Systems.

EDUCATION

- **2020-2023: PhD** Mechanical and Industrial Engineering, Toronto Metropolitan University (Formerly Ryerson University), Canada. (A+, GPA 4.33/4.33).
- **2016-2019: MSc** Industrial Engineering – Engineering Management, Iran University of Science and Technology (IUST), Iran. (GPA 90/100).

PUBLICATIONS

a) PEER-REVIEWED JOURNALS

- (1) Bateni, F., **Sharifi, E.**, Amin, S.H. et al. Sustainable food supply chain network design and optimization: A systematic literature review. *J. of Data, Inf. and Manag.* (2025). <https://doi.org/10.1007/s42488-025-00156-1>
- (2) **Sharifi, E.**, Amin, S. H., & Fang, L. (2023). Designing A Sustainable, Resilient, and Responsive Wheat Supply Chain under Mixed Uncertainty: A Multi-Objective Approach. *Journal of Cleaner Production*, 140076. **Elsevier, Impact Factor: 9.8**
- (3) **Sharifi, E.**, Fang, L., and Amin, S. H. (2023). A Novel Two-Stage Multi-Objective Optimization Model for Sustainable Soybean Supply Chain Design under Uncertainty. *Sustainable Production and Consumption*, 40, 297-317, **Elsevier, Impact Factor: 12.1.**
- (4) **Sharifi, E.**, Amin, S. H., & Fang, L. (2023). Assessing Sustainability of Food Supply Chains by Using a Novel Method Integrating Group Multi-Criteria Decision-Making and Interval Type-2 Fuzzy Set. *Environment, Development and Sustainability*, 1-41. **Springer, Impact Factor: 4.9.**
- (5) **Sharifi, E.**, Sadjadi, S. J., Aliha, M. R. M., & Moniri, A. (2020). Optimization Of High-Strength Self-Consolidating Concrete Mix Design Using an Improved Taguchi Optimization Method. *Construction and Building Materials*, 236, 117547. **Elsevier, Impact Factor: 7.4.**
- (6) Hendiani, S., **Sharifi, E.**, Bagherpour, M., & Ghannadpour, S. F. (2019). A Multi-Criteria Sustainability Assessment Approach for Energy Systems Using Sustainability Triple Bottom Line Attributes and Linguistic Preferences. *Environment, Development and Sustainability*, 1-35. **Springer, Impact Factor: 4.9.**
- (7) **Sharifi, E.**, Hasanpour, J., & Taleizadeh, A. A. (2019). A Lot Sizing Model for Imperfect and Deteriorating Products with Destructive Testing and Inspection Errors. *International Journal of Systems Science: Operations & Logistics*, 1-12. Taylor and Francis, Impact Factor: 4.2.
- (8) Davoudabadi, R., Mousavi, S. M., & **Sharifi, E.** (2020). An Integrated Weighting and Ranking Model Based on Entropy, DEA And PCA Considering Two Aggregation Approaches for Resilient Supplier Selection Problem. *Journal of Computational Science*, 40, 101074. **Elsevier, Impact Factor: 3.3.**
- (9) Hendiani, S., Jiang, L., **Sharifi, E.**, & Liao, H. (2020). Multi-Expert Multi-Criteria Decision Making Based on The Likelihoods of Interval Type-2 Trapezoidal Fuzzy Preference Relations.

b) CONFERENCE PUBLICATIONS

1. **Sharifi, E.**, Fang, L., Amin, S. H. (2023). Developing a Novel Sustainable, Resilient, and Responsive Wheat Supply Chain Network: A Multi-Objective Approach under Mixed Uncertainty, *Management Science Division, ASAC 2023 Conference*, Toronto, Canada, June 3 to 5, 2023.
2. **Sharifi, E.**, Amin, S. H., & Fang, L. (2023). A Stochastic Multi-Objective Model for Sustainable Soybean Supply Chain Network Configuration. In *Industrial Engineering in the Covid-19 Era: Selected Papers from the Hybrid Global Joint Conference on Industrial Engineering and Its Application Areas, GJCIE 2022, October 29-30, 2022* (pp. 238-249). Cham: Springer Nature Switzerland.
3. **Sharifi, E.**, Fang, L., and Amin, S.H. (2021). A Fuzzy Hierarchical Group Decision Approach for Sustainability Assessment of Food Supply Chains. Presented at and refereed extended abstract published in the *Proceedings of the 21st International Conference on Group Decision and Negotiation*, June 6 to 10, 2021, Toronto, Canada, pp. 141-143
4. **Sharifi, E.**, Amin, S. H., & Fang, L. (2021). A New Fuzzy Group Decision-Making Approach for Evaluating Sustainability of Food Supply Chains. In *IIE Annual Conference. Proceedings*, Institute of Industrial and Systems Engineers (IIE), 199-204.
5. **Sharifi, E.**, Rodbaraki, J. H. (2016). New Mathematical Modeling for Perishable Items Inventory Control with Acceptance Sampling, Production and Inventory Management, *12th international conference on industrial engineering*, Tehran, Iran.
6. Asgharpour, A., **Sharifi, E.**, Rodbaraki, J. H. (2018). A Model for Perishable Items Inventory Control with Fuzzy Demands, *14th international conference on industrial engineering*, Tehran, Iran.
7. **Sharifi, E.**, Salami, Z. (2018). A Conceptual Inventory Model Using Demand Forecasting Techniques and EOQ, *5th international conference on Iran automotive industry*, Tehran, Iran.

c) CONFERENCE PRESENTATIONS

1. **Sharifi, E.**, Amin, S. H., Fang, L. (2023) “Designing a Sustainable, Resilient, and Responsive Wheat Supply Chain Network under an Uncertain Environment”, Presented at CORS (Canadian Operational Research Society)/Optimization Days 2023, Montreal, Canada, May 29 to 31, 2023.
2. **Sharifi, E.**, Fang, L., Amin, S. H. (2022). Developing A New Hybrid Multi-Objective Optimization Model for Soybean Supply Chain Configuration with Sustainable Considerations Under Uncertainty, *CORS/INFORMS International Conference*, Vancouver, CA. (Chairperson of “Supply Chain Optimization” session)

d) WORKING PAPERS

- (1) **Sharifi, E.**, Amin, S. H., & Fang, L. (2026). Designing A Sustainable food supply chain integrating supplier selection and order allocation using fuzzy multi-criteria decision-making methods. (**Under review**)

- (2) Saravanan, A., **Sharifi, E.**, Amin, S. H. (2026) Advancing Minority Class Detection in Diabetic Diagnosis through Borda-Based Feature Selection and Hybrid Resampling. (**Under review**)
- (3) Rahiminia, S., **Sharifi, E.**, Amin, S. H., & Fang, L. (2025). A Sustainable Forest-Based Biomass Supply Chain Network Redesign: A Robust Optimization Approach (**Under review**)

e) THESIS

1. **Sharifi, E.** (2023). Design and Optimization of Sustainable Food Supply Chain Networks. Toronto Metropolitan University Ph.D. degree. Supervisors: Dr. Saman Hassanzadeh Amin and Dr. Liping Fang.
2. **Sharifi, E.** (2019). Proposed A Taguchi Based BWM Method Optimization Approach. Iran University of Science and Technology. Master's degree. Supervisor: Dr. Seyed Jafar Sadjadi.

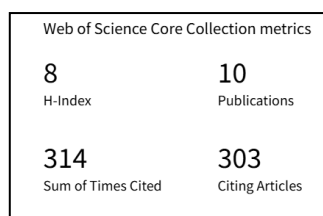

f) REVIEWER

JOURNALS

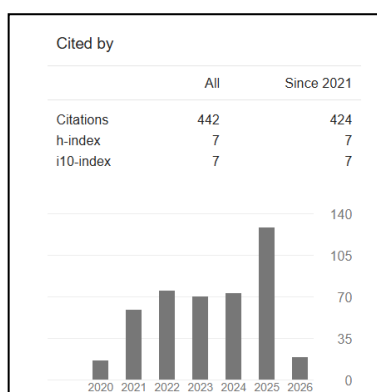

1. Environment, Development, and Sustainability, 6 reviews.
2. Journal of Cleaner Production, 3 reviews.
3. Journal of Construction and Building Materials, 1 review.
4. Transportation Research Part E: Logistics and Transportation Review, 1 review.
5. Cleaner Logistics and Supply Chain, 1 review.
6. Green Technologies and Sustainability, 1 review.

CITATIONS

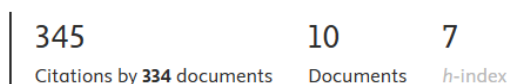

a) WEB OF SCIENCE CITATIONS

b) GOOGLE SCHOLAR CITATIONS

c) SCOPUS CITATIONS

SCHOLARSHIPS AND FELLOWSHIPS

- Toronto Metropolitan University Doctoral Tuition Scholarship (International), 2020 – 2024 [Tuition + \$24000].
- Toronto Met Graduate Scholarship (TMGS), 2023-2024 [15000\$].

SUPERVISION

Co Supervision with Dr. Saman Hassan Zadeh Amin			
Name	School	Research topic	Time frame
Master of Engineering			
Raha Bateni	M, I, and M Engineering, Toronto Metropolitan University	Design and optimization of food supply chain networks	Jan. 2024 - August 2024

MEMBERSHIP IN PROFESSIONAL SOCIETIES

- Canadian Operational Research Society (CORS).
- Administrative Sciences Association of Canada (ASAC)
- Institute for Operations Research and the Management Sciences INFORMS

HONORS AND AWARDS

- Canadian Operational Research Society (CORS) Diploma.
- Mechanical and Industrial Engineering Graduate Studies Award 2022-2023 (\$2000)
- Nominated for Governor's Gold Medal

VOLUNTEER

- Technical support for 21st International conference on Group Decision and Negotiation (GDN) June 6-10, 2021
- Student representative of the Graduate Council and Department Council, Toronto Metropolitan University (Formerly Ryerson University), 2021-2022
